## Summary

BSIT graduate from Quezon City University with a passion for UI/UX design. I focus on creating clean, intuitive, and user-friendly interfaces. My goal is to develop User focused designs that are not only visually appealing but also highly functional and effective for end-users.

## Experience

Quezon City Government

Quezon City, Philippines

On job Training - Web Developer

08/2025 - 04/2026

- Developed a responsive ticketing management system to streamline issue reporting and tracking.
- Implemented a multi-user environment with specific access levels for Admin, IT Staff, Branch Admin, and Employees.
- Integrated secure authentication features, including QR Code user registration and a dedicated authentication app.

## Technical Skills

Web Technologies: HTML, CSS, JAVASCRIPT

Databases & Query language: MYSQL, SQL

UI/UX Design (Figma).

- Wireframing
- Prototyping
- Low fidelity UI Design
- High Fidelity Design

## Education

Quezon City University

Quezon City, Philippines

Bachelor of Science in Information Technology

08/2021 - 05/2026

## Languages

Language Filipino ●●●●●

Language English ●●●●●

## Projects

### Ordering Management - UI

09/2023 - 12/2023

User interface design for a coffee shop ordering and management system.

- Designed a user-friendly interface for managing coffee shop orders, inventory, and sales transactions

### E-commerce - UI

01/2024 - 05/2024

User interface design for a responsive e-commerce website and shopping platform.

- Designed responsive layouts for product browsing, secure checkout, and inventory management features.

### RealEstate - Web app

01/2025 - 05/2025

Property Value Prediction and Market Analysis Platform using Linear Regression Algorithm.

- Property Value Prediction and Market Analysis Platform using Linear Regression Algorithm.

### HealthLink - Web app

09/2025 - 03/2026

Developed HealthLink, a healthcare management system that streamlines patient care through real-time monitoring, automated queuing, and clinical documentation (SOA, Lab Requests, and Discharge Summaries). It features an AI-powered triage module that analyzes chief complaints and diagnoses to automatically assign patients to the appropriate medical department and personnel

- Improved triage efficiency by automating patient-to-department assignments, reducing manual coordination time
- automated SOA generation, minimizing manual data entry errors.

## CERTIFICATES

---

### **Certificate of Appreciation** | DOST

06/2025

- For sharing time and assistance during the conduct of PROJECT MANAGEMENT EXCELLENCE TRAINING.

### **Network Defense** | Cisco Networking Academy

04/2026

- Completed foundational training in network defense, cybersecurity concepts, and protection against common cyber threats.

### **AI Fundamentals with IBM SkillsBuild** | Cisco Networking Academy

02/2026

- Learned the basic concepts of Artificial Intelligence, machine learning, and real-world AI applications.

### **Introduction to Cybersecurity** | Cisco Networking Academy

01/2026

- Gained knowledge of cybersecurity principles, online safety, and cyber threat prevention techniques.

### **Introduction to Data Science** | Cisco Networking Academy

03/2026

- Acquired foundational understanding of data analysis, visualization, and data-driven decision making.

### **Introduction to Modern AI** | Cisco Networking Academy

03/2026

- Explored modern Artificial Intelligence technologies, generative AI concepts, and practical AI applications.
